

TRANS-TEL WIRELESS PAST PERFORMANCE		
CHESAPEAKE ARENA & COX CONVENTION CENTER WIRELESS AP NETWORK CABLING CITY of OKLAHOMA CITY, OKLAHOMA		
Location	Dates	Trans-Tel Role
Oklahoma City, OK	Jul - Sep 2018	Prime Contractor
<p>In July 2018, Trans-Tel Central LLC was awarded the \$179,000+ contract (#2274) with two change orders, to provide 100% wireless access coverage to both the Chesapeake Energy Arena (home of the NBA Oklahoma City Thunder) and Cox Convention Center, for the City of Oklahoma City.</p> <p>Trans-Tel was tasked with engineering, furnishing, installing, terminating and testing 500 network cable drops; 125,000 feet of Cat6 copper cables with pathway cores, raceways and supports for each; associated 500 wireless access point antennas and mounts; build-out of 57 network switch cabinets with patch panels and jumper cables.</p> <p>With praise from the customer for speedy, professional and technically superior results from the installation crew, this work effort concluded well ahead of contractual period of performance date with no disruptions in service. Trans-Tel tests and certifies all installed fiber and copper cable and delivers "as built" drawings to the owner and any prime contractor upon completion.</p>
